

Hydro Maintenance Foreperson

Merced Irrigation District (MID) is seeking a self-motivated and qualified individual to fill the position of Hydro Maintenance Foreperson at its Hydro-Electric Facility, located along the Merced River at Lake McClure. Under general supervision, performs precision work with all types of electrical and mechanical equipment in use at the Hydroelectric Project facilities; performs welding, rigging and carpentry work, job planning and overseeing of outside contractors; purchases maintenance supplies and parts; supervises Hydro-Maintenance personnel and perform duties of an electrician on low and high voltage equipment with moderate skills.

Qualifications include a minimum of 10 years experience in the maintenance of large industrial mechanical and electrical equipment, with a minimum of 5 years in a large hydro-electric facility. Completion of high school required with classes in algebra and trigonometry plus classes in basic electricity, AC & DC Circuits and AC & DC machines. May be required to attend additional courses in mathematics, electricity and computers and compliance to stay current with hydro-electric mechanical technology and industry standards. May be required to reside in MID housing at Exchequer Dam located in Snelling, California and will be subject to call out for any powerhouse related problems. Must possess a valid California Driver's License.

Salary Range \$39.7408 to \$49.6760 per hour. MID is a public agency offering a competitive benefit program along with participation in California Public Employees Retirement program.

Position open until filled. To apply, send a complete application, resume, cover letter and list of four references to PO Box 2288, Merced, CA 95344 or apply@mercedid.org. The job description and application may be obtained on-line at www.mercedid.org or at 744 W. 20th St in Merced. A pre-employment drug screen, physical exam, and background investigation is required for the successful candidate.
